EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chris Bernard on February 9, 2007.

2. The application has been amended as follows:

Amendments to the Claims:

In claims 1, 8, 15, 23, and 31:

The phrase "performing signal attenuation-dependent blending" has been changed to "performing signal attenuation-dependent blending, wherein the blending comprises blending together the structure-dependent noised filtered image and the processed x-ray image data."

The phrase "creating a noise-reduced digital x-ray image therefrom" has been changed to "creating a noise-reduced digital x-ray image from the output of the signal attenuation-dependent blending."

Art Unit: 2624

Amendments to the Specification:

The phrase "(GEMS 135059)" of Page 11, line 4 of the specifications has been deleted.

On page 11, lines 4-5 the phrase "U.S. Patent Application Serial No. _____, filed on _____" has been amended to "U.S. Patent Application Serial No. 10/723,736, filed on November 26, 2003".

3. The following is an examiner's statement of reasons for allowance:

In regards to claims 1-33, the prior art of record fails to teach the precise steps that are dependent upon each other for the X-ray noise reduction, and does not contain motivation to combine the suggested steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Claire Wang whose telephone number is 571-270-1051. The examiner can normally be reached on Mid-day flex.
